

Katherine Matthews - Board Biography

Katherine Matthews is a trusted leader with over twelve years of international technical and business development experience and is known for her strong execution skills, high integrity, and proven track record of results. She is skilled at navigating complex operational and regulatory challenges and is uniquely adept at communicating with different types of stakeholders. Ms. Matthews approaches problems with an international lens having studied and worked in the United States, Canada, and the United Kingdom.

Ms. Matthews started her career in Calgary, Alberta working for Talisman Energy before moving to Denver, Colorado to help build Crescent Point Energy's US presence. During her time at Crescent Point, she managed the Uinta Basin's development program and production of 20,000 barrels of oil per day, collaborated with the Ute Indian Tribe, and provided sworn expert testimony at over ten Utah Board of Oil, Gas, and Mining hearings. In 2019, Ms. Matthews was invited to speak at both the Utah Governor's Energy Summit in Salt Lake City and the Women's Energy Network's National Conference in Denver, Colorado.

Ms. Matthews has pursued many intrapreneurial projects and initiatives throughout her career by marrying her technical and business acumen. Most recently, she led Sentinel Peak Resource's (a Quantum Energy Partners portfolio company) team that is appraising multiple decarbonization strategies and a flagship carbon capture and sequestration hub in California.

Ms. Matthews is a registered Professional Engineer in Alberta, Canada, member of the Society of Petroleum Evaluation Engineers, and has passed the CFA Level I examination. Ms. Matthews received her Applied Science degree in Geological Engineering from Queen's University in Kingston, Canada and earned her Masters of Business Administration from the Saïd Business School at the University of Oxford in the United Kingdom.
