[LinkedIn Profile](#)

Experienced director with broad-range of experience in multiple industries. Values centered, corporate strategic thinker, with the ability to evaluate issues from broad-based perspectives. A big picture person, skilled at taking complex issues and developing strategic salient decisions.

Audit/Risk/Finance

- Uncovered over \$100 million due to clients, in forensic investigations and recommended a framework of internal controls based on corporate risk analysis and ERM principles.
- Testified in court proceedings putting fraudsters out of business.
- Oversaw financial, operational audits of startups to Fortune 100 companies, hospitals, and universities ensuring financial integrity, contract compliance, internal controls, and regulatory compliance.
- Designed reporting and analysis to owners, shareholders, banks and executive management.

Strategic Planning

- Facilitated CEO's and executive management in envisioning and setting strategy and direction. Outcomes included changing sales models, increasing margins, building better team dynamics, and increasing revenue and net income, significantly.
- While CFO, moved company from operating around the verbal direction of the CEO to agreed-upon processes and procedures, resulting in 4X company growth.

Compensation

- As a board member and executive recruiter, designed and benchmarked executive compensation to ensure alignment to corporate strategy, as well as industry practice, and equity among the individuals involved.

Ethics/Compliance

- Ensured client compliance with FCPA and corporate ethical standards.
- Maintained regulatory compliance in multiple industries, including banking, oil and gas, solar, and electrical utilities.

Mergers and Acquisitions

- Analyzed financials for corporate acquisitions and divestitures, including risk analysis.
- Oversaw sale of millions in assets after acquisitions.

Public Affairs/Policy/Social Responsibility

- While CFO, set policy for community stakeholder engagement.
- As a community liaison for \$26 billion oil and gas company became president of chamber of commerce, president of tri-chamber of commerce, YMCA board member, and testified in front of the Los Angeles county commissioners on corporate and community issues.
- As Business Manager of \$1 billion corporation briefed executive management on strategic internal, social and communication issues with clients, governmental entities and potential employment recruits.

Investments/Treasury

- Implemented bank investment/treasury strategy, based on board direction.
Audited implementation of board direction on corporate treasury processes and investments.

HR/Employee Benefits

- As the business manager for \$1 billion engineering services company oversaw HR and employee benefits, lowering employee turnover, increasing productivity, and reducing expenses, while increasing the bottom line.
- Created recruiting and compensation plans for telecommunications executives, and oversaw staffing of global department.
- As board member, created staff recruiting and compensation plans.

Technology

- Upgraded region-wide technology, plan implementation increased speed of internal and client communications.
- Oversaw multiple accounting software implementations and Beta test for manufacturing management software.

Nominating/Governance

- Redesigned board experience and mastery levels, created board member position skills development program, including executive techniques, lowering board turnover.
Significantly increased organization revenue and net income.
- Established board governance, recruited directors for the board, oversaw bank and financial operations and lead strategic and long-term planning at the board level. Developed new directors' on-boarding process and on-going training for existing directors.

Crisis Management

- Kept clients from leaving manufacturing concern due to lack of salable inventory; opened pad locked warehouses, refurbished old inventory and kept clients from leaving until manufacturing was operational.
- As board chair, dealt with extraordinary circumstances before they turned into crises; including obtaining external legal advice and determining necessary public relations and community responses.
